MAVEN LIFELINE
Money in when life can't wait

Maven Lifeline™ Cash Advance (MVP)

Access requires active MAVEN Subscription Status

Eligibility Gate : MAVEN Membership

Maven Mission & Context

Maven is a product dedicated to providing essential support to struggling Canadians. Maven Lifeline is the core financial enablement feature, offering an affordable alternative to short-term lending.

Target Market

- Canadian workers living paycheck-to-check.
- Individuals seeking alternatives to expensive overdrafts or payday loans.
- Canadians requiring instantaneous and easy access to immediate emergency funds

Key Features & Value Proposition (MVP Focus)

Maven Lifeline Cash Advance (Access Limit)

Access up to $100 (MVP Max) in earned income immediately. Advances start at **$50.00** and the credit limit will increase based on positive repayment history. Multiple small advances are permitted up to the maximum credit limit.

Repayment is flexible; users set the repayment date to align with their next paycheck.

Maven Lifeline Advance Fees & Access Cost

Advance Fees (Applied per Advance)

- Mandatory Processing Fee: 2.99% Applies to all loan amounts.
- Instant Access Fee (EMT): $4.99 (Flat Fee) **Waived one time only** for the first instant advance of **$20.00 or less**. Otherwise, fee applies if EMT is chosen.

Free EFT Option - Selecting Standard Transfer (EFT) avoids the $4.99 Instant Access Fee entirely.

Voluntary Tip

Users can optionally leave a tip to support the Maven Lifeline service.

MVP Fee Scenario: Cumulative Borrowing Example

Scenario: A client accumulates a total of **$100.00** in advances over multiple days, selecting **Instant Transfer (EMT)** for every transaction.

Transaction	Amount	Service Fee (2.99%)	Instant Fee (EMT)	Total Fees
Loan 1 (Day 1)	$20.00	$0.60	$0.00 (Waived*)	$0.60
Loan 2 (Day 5)	$30.00	$0.90	$4.99	$5.89
Loan 3 (Day 7)	$30.00	$0.90	$4.99	$5.89
Loan 4 (Day 9)	$20.00	$0.60	$4.99	$5.59
TOTALS	$100.00	$3.00	$14.97	$17.97

*Note: The One-Time Instant Access Fee Waiver applies only to the first EMT advance of $20.00 or less.

II. Strategic Migration and Grandfathering Plan

A. Client Migration Strategy (MU to Maven)

The immediate priority is to transition all new and existing users to the FSL platform under the new branding structure:

- **Platform Integration:** Maven is being incorporated into FSL under the existing **"Village"** platform (FSL Branch 698).
- **Product Re-imagining:** The legacy **"Milk Money"** product is being re-imagined and replaced entirely by the new **"Little Lifeline"** product within FSL.
- **New Client Intake:** All new clients will be onboarded directly into the **Maven** system and immediately qualify for the **Little Lifeline** advance (starting at $50, max $100).
- **Funding Mechanism:** Little Lifeline advances will be funded through a **web-based option** (via the Maven UI calling the FSL API) for the foreseeable future.

B. Grandfathering Existing Milk Money (MU) Clients

We must establish a controlled off-ramp for existing MU clients who have historically borrowed more than the LL MVP maximum of $100.

1. **Grandfathering Rule:** All existing MU clients with current maximum loan limits **greater than $100.00** will be **grandfathered** at their current limit.
2. **Eligibility Trigger:** Grandfathered status is maintained **until the client goes late** on a repayment.
3. **De-Risking Strategy:** Upon the client's next successful repayment following any limit-triggering event (e.g., late payment), their maximum lending ability will be **gradually lowered** in controlled increments (e.g., $20 or $50 drops) to bring them in line with the $100 Little Lifeline maximum.
4. **Operational Management:** Due to the complexity of this temporary grandfathering rule, these specific client limits will be managed operationally through a dedicated **Excel workbook** in the short term, until FSL's new logic rules can fully enforce the tiered reduction.

III. Product Roadmap and Timeline

The following roadmap outlines the current timeline and future feature integrations, with the core MVP tied to developer time commitments.

Phase	Target Timeline	Focus & Deliverables	Status
Phase 1: Soft Launch	**Current**	Internal testing and initial move of clients to Maven eligibility status within FSL. Verifying core FSL/API integration.	In Progress
Phase 2: Full MVP Launch	**Mid to Late January**	Full web-based transactional launch. Integration of **Stripe** (Visa/Mastercard Debit) for instant funding/repayments. Finalizing the **2.99% Mandatory Fee** and **One-Time Waiver** logic.	Development Dependent
Phase 3: Product Extension	**Q2/Q3 2026**	**SAVINGS CIRCLES IMPLEMENTATION:** Re-introduction of Savings Circles as a voluntary feature to promote financial health. ****MVP SAVINGS CIRCLES Test in Q1 with small groups of MU clients****	Deferred
Phase 4: Mobile Expansion	**Q3/Q4 2026**	**APP DEVELOPMENT:** Launch of dedicated mobile applications (iOS/Android) to improve customer retention and user experience. **BUDGETING AND FORECASTING TOOLS UTILIZING AI** : implementation of guardians to forecast when there will be a shortfall to cover bills or avoid NSFs and provide instant access to funds to help avoid the NSFs	Deferred
