Canary Modular Building Product Manual - English Translation

Original Title: 金丝雀装配式建筑户型手册 (Canary Prefabricated Building Model Manual)

Product Overview

This is a catalog of **EPS (Expanded Polystyrene) foam modular buildings** from a Chinese manufacturer specializing in prefabricated structures. These are lightweight, sculptural building shells that can be customized for various applications.

Page 9: DOME HOUSE

Title: EPS 圆型组件 (EPS Dome Components)

EPS Prefabricated Modules

Description:

- Circular roof components (approximately 850 kg each when assembled)
- Modular assembly system for various shapes
- Can be assembled on-site using soil and ground as the foundation to create custom spaces
- **Dome House is one of the most attractive features**

Nine Dome House Models:

1. **No.1 - 正圆基本圆屋** (Standard Round Dome)
    - Basic circular dome structure
2. **No.2 - 拱形屋顶** (Arched Roof)
    - Arched roof design
3. **No.3 - 拱形屋顶 + 拱墙** (Arched Roof + Arched Wall)
    - Combined arched roof and wall system
4. **No.4 - 椭圆扩展圆屋** (Elliptical Extended Dome)
    - Elliptical dome expansion
5. **No.5 - 落地圆拱形屋** (Ground-Level Arched Dome)

    - Ground-level arched structure
6. **No.6 - 椭圆屋 + 扩展** (Elliptical House + Extension)
    - Elliptical base with extension
7. **No.7 - 复式扩展圆屋** (Duplex Extended Dome)
    - Two-story extended dome
8. **No.8 - 拱形采光屋** (Arched Skylight House)
    - Arched structure with skylights
9. **No.9 - 拱形屋 + 扩展** (Arched House + Extension)
    - Arched base with extension modules

Module Components Shown:

- 弧形墙面 (Curved wall panels)
- 圆顶门块 (Dome door modules)
- 窗户模块 (Window modules)
- 外墙模块① (Exterior wall module 1)
- 拱顶天窗 (Arched skylight)
- 外墙模块② (Exterior wall module 2)
- 拱顶外墙 (Arched exterior wall)

Additional Pages Summary:

Pages 1-8: Various Building Models

- Multiple prefabricated building designs
- Different architectural styles and sizes
- Modular construction systems

Pages 10-11: Floor Plans

- 128 square meters mentioned
- Detailed layout configurations

Pages 12-14: 卡通造型房屋 (Cartoon-Style Houses)

- Whimsical, themed building designs

- Playful architectural forms
- **Highly relevant for Digger Cafe's "Fueled by JOY" aesthetic**

Pages 16-19: EPS Sculptures

- **文创雕塑造型** (Cultural & Creative Sculpture Designs)
- **景观公仔雕塑** (Landscape Character Sculptures)
- Large-scale EPS foam sculptures for outdoor installations
- **Perfect for creating the "scenic shell" mountain/dig site theme around the shipping containers**

Relevance to Digger Cafe Project

This manufacturer produces exactly what the historical floor plans show:

1. **EPS Foam Scenic Shell** - The non-structural foam shell (81' x 40' footprint) that wraps around the two shipping containers
2. **Dome Houses** - Could be used for additional structures or themed areas
3. **Cartoon-Style Houses** - Aligns with the whimsical, playful design philosophy
4. **Landscape Sculptures** - Can create the mountain/dig site aesthetic with RC equipment displayed on top

Key Advantages:

- Lightweight (850kg modules are manageable)
- Modular assembly on-site
- Customizable shapes and forms
- Weather-resistant EPS construction
- Perfect for creating immersive themed environments

Page 11: 82 平方 (82 Square Meters)

Model: Compact dome house design

- Floor area: 82 square meters
- Includes floor plans and elevation views
- Modular skylight panel on roof

- Single entrance design

Page 12: 128 平方 (128 Square Meters)

Model: Triple-dome connected structure

- Floor area: 128 square meters
- **可随意组合变换** (Can be freely combined and reconfigured)
- **无限空间想象** (Unlimited spatial imagination)
- Three connected dome modules in light blue/turquoise color
- Large glass wall sections
- Modular assembly allows custom configurations
- Includes detailed floor plans and elevation drawings

Perfect for Digger Cafe: This modular approach matches the concept of connecting two shipping containers with flexible scenic shell coverage.

Pages 12-14: 卡通造型房屋 (Cartoon-Style Houses)

Whimsical Animal-Themed Dome Structures

These pages showcase incredibly playful, character-based dome houses that align perfectly with the "Fueled by JOY" philosophy:

Featured Designs:

- **Bunny/Rabbit Houses** - White domes with pink ears and cute faces
- **Deer/Reindeer Houses** - Gray domes with antlers
- **Panda Houses** - White and black dome with panda face features
- **Fox Houses** - Orange/brown dome with fox characteristics
- **Frog Houses** - Green dome with frog features
- **Chick/Bird Houses** - Yellow dome with bird features
- **Various Animal Characters** - Multiple colorful options

Page 13 Rendering: Shows realistic outdoor installation with multiple cartoon houses in a park-like setting, including:

- Panda house (large, prominent)
- Fox/Cat house (orange)

- Bird/Chick house (yellow)
- Frog house (green)
- Bunny house (white/pink)
- Blue character house

Page 14 Aerial View: Shows village-style arrangement of multiple cartoon houses with landscaping, pathways, and natural integration.

Digger Cafe Application: These cartoon houses could serve as:

- Additional themed play areas
- Retail/merchandise spaces
- Photo opportunity zones
- Rest areas for families
- Birthday party rental spaces

Page 15: 户型选择多样化 (Diverse Model Selection)

Summary page showing the full range of options:

- Modular building systems
- Dome house configurations (all 9 models)
- Cartoon character houses
- Technical drawings and specifications
- Photo of actual constructed dome (appears to be a panda or bear design)

Key Message: "Diverse model selection" - emphasizing customization and flexibility

---

Page 16: EPS 文创雕塑造型 (EPS Cultural & Creative Sculpture Designs)

Large-Scale Sculptural Installations:

1. **Street Scene Sculpture** - Multi-story building facade with character sculptures integrated into the design, showing retail storefronts and residential levels above
2. **Shopping Mall Character Sculpture** - Large yellow bear/tiger character sculpture (approximately 3-4 meters tall) installed in outdoor shopping plaza with families interacting

Applications: These demonstrate EPS foam's capability for creating:

- Themed architectural facades
- Large character sculptures for public spaces
- Interactive photo opportunities
- Branded mascot installations

Pages 17-18: EPS 景观公仔雕塑 (EPS Landscape Character Sculptures)

Extensive Character Sculpture Catalog:

Page 17 shows dozens of small-to-medium character sculptures including:

- Cute animals (elephant, cow, monkey, rabbit, bird, snake)
- Farm animals (tiger, dog, cat, pig)
- Multiple color options and styles
- Disney-style and traditional designs
- Various sizes and poses

Page 18 shows even more variety:

- Cartoon characters
- Animals (sheep, elephants, dinosaurs, cows, ladybugs)
- Fantasy creatures
- Robots and superheroes
- Licensed character-style designs
- Educational themes (dinosaurs, etc.)
- Family-friendly mascots

Catalog includes labeled designs with Chinese names and numbering system for ordering.

Strategic Recommendations for Digger Cafe

Why This Manufacturer is Perfect:

1. Scenic Shell Capability

The dome house and modular building systems prove they can create the 81' x 40' EPS foam scenic shell to wrap around your two shipping containers, creating the mountain/dig site aesthetic shown in your floor plans.

2. Whimsical Design Alignment

The cartoon-style houses (pages 12-14) perfectly match your "Big Mama's Genius Village — Fueled by JOY" branding. These aren't industrial or brutalist - they're magical, playful, and family-friendly.

3. Character Sculptures

The extensive character sculpture catalog (pages 17-18) offers options for:

- RC equipment display platforms (imagine excavators sitting on cartoon animal sculptures)
- Photo opportunity zones throughout the facility
- Wayfinding and theming elements
- Merchandising tie-ins (plush versions of the sculptures)

4. Proven Outdoor Installation

The renderings show these structures installed in outdoor park settings with landscaping, exactly like your Kokanee Campground location.

Recommended Next Steps:

1. **Contact Canary directly** to discuss:
    - Custom scenic shell design for 81' x 40' footprint
    - Integration with two 40' shipping containers
    - Cartoon house options for additional structures
    - Character sculpture selection for theming
2. **Request detailed quotes** including:
    - Manufacturing costs
    - Shipping to Alberta, Canada
    - Installation support/instructions
    - Weather resistance specifications (Alberta winters)
    - Warranty and durability information
3. **Trade show coordination** with Lisa:
    - Confirm if Canary will attend Canton Fair (Apr 15-19 & 23-27)
    - Or Gifts & Home Shenzhen (Apr 25-28)

- Schedule in-person meetings to see samples
- Bring your floor plans and design concepts

4. **Design integration**:
   - Work with Canary to create custom scenic shell that incorporates:
     - Mountain/dig site aesthetic
     - RC equipment display areas on top
     - Burrow tunnel connection between containers
     - Cartoon character elements
     - "Big Mama's Genius Village" branding
5. **Website design implications**:
   - When we resume website development, the design should reflect this whimsical, cartoon-style aesthetic
   - Use warm, playful colors (like the light blue domes, yellow characters, etc.)
   - Incorporate organic, rounded shapes
   - Emphasize joy, wonder, and family adventure
   - Show the unique architectural concept with scenic shell

Cost Considerations:

EPS foam structures are typically very cost-effective compared to traditional construction:

- Lightweight (reduces shipping costs)
- Quick installation (reduces labor costs)
- Weather-resistant (low maintenance)
- Modular (can expand over time)
- Non-structural (simpler permitting)

This aligns perfectly with your "Ruby Red" client focus - creating an amazing, memorable experience at an affordable price point that makes it accessible to working families.
